

Media & Public Affairs

The Media & Public Affairs Department manages ICHAI's external communications and public engagement. This department serves as the primary point of contact for journalists, media organisations, and public stakeholders seeking information, commentary, or expert perspectives on artificial intelligence and its societal implications.

The team coordinates interviews, press statements, public briefings, and media responses, ensuring that ICHAI's voice remains clear, authoritative, and aligned with its mission. It also supports strategic communication efforts that raise awareness about responsible AI, governance frameworks, and emerging global issues.

For media professionals seeking informed commentary or expert insight, this department provides timely and credible responses. It also works to ensure that complex AI topics are communicated in a way that is accessible, accurate, and impactful.

This department is essential for fostering public understanding and ensuring that discussions around AI remain balanced, informed, and grounded in ethical considerations.
